

Announcing Our Secure Patient Portal

Request a Personal Identification Number (PIN) Today

Please go to our web site—www.brain-spine.com—and click on the “Secure Patient Portal” button in the left navigation area to sign up.

We are pleased to announce our Secure Patient Portal, a safe way for patients and the practice to communicate over the internet. Once you have registered through the Secure Patient Portal, you may conveniently interact online with our practice—all with a high level of privacy and security.

You may:

- Update Personal Information
- Request Prescription Refills
- Ask Billing Questions
- Contact Your Physician
- Ask Questions

Ask for a PIN Number

For existing patients, a PIN number is necessary to sign up at the Secure Patient Portal. You will use this PIN only the first time that you go to the Portal and register. To receive a PIN number, ask in person at our office or by phone and you will be provided with a listing of your PIN.

The PIN number is used to verify your identity only the first time you register on the Secure Patient Portal. After the verifying process is complete, your personal and medical information will be made available through our secure internet service.

When you have your PIN number, go to the Secure Patient Portal and click on the Register button at the top left of this page. Follow the instructions to set up your User ID and Password. The User ID and Password that you set up will be used for all your subsequent visits to these secure pages, so make sure to remember it and keep it handy! Follow the instructions on the Secure Portal registration pages, and within two business days your registration will be complete.
